**0 → 1**

PLATFORM DELIVERY

## MISSION STATEMENT

Throughout my 15+ year career, I have been shaped by complex, large-scale projects where I was thrown into the deep end and expected to deliver. In each case, I was fortunate to be mentored by experts who taught me how to convert institutional complexity into modern financial products.

Skilled in building global trading platforms and aligning regulatory requirements with high-performance engineering from concept to launch.

## PROFESSIONAL EXPERIENCE

### ThinkVest

2021 – Present

#### HEAD OF PRODUCTS

Architected a 0→1 IP-backed trading platform. Designed complex SPV investment vehicles and automated KYC/investor onboarding workflows.

### EquiLend

2018 – 2020

#### PRODUCT MANAGER (CLEARING SERVICES)

Directed middle-office overhaul for systems supporting \$2.36B daily volume. Owned Agile backlog for the OCC Market Loan program enabling anonymous contract settlement.

### BNP Paribas

2014 – 2018

#### PRODUCT MANAGER (SECURITIES FINANCE)

Replaced legacy FIS Loanet with an in-house platform, generating **\$2.5M in annual savings**. Implemented Tableau for real-time liquidity and KPI visualization.

### MUFG Union Bank

2011 – 2014

#### PRODUCT MANAGER / BUSINESS LEAD

Integrated 5 platforms into a central warehouse for Basel III risk reporting. Served as SME for core banking replacement and General Ledger account mapping.

## EARLY CAREER & DOMAIN FOUNDATION

#### InfoHedge Technologies | Product Manager

Configured Security Master systems for Apollo Capital; integrated Bloomberg data feeds for corporate action tracking.

#### Bank of America | Middle Office Business Analyst

Managed daily P&L and reconciliations (Options, Fixed Income) and resolved DTC/Bloomberg reporting gaps.

#### SS&C GlobeOp | Back Office Fund Accountant

Administrator for major Hedge Fund portfolios using Advent Geneva; built complex reconciliations to capture all NAV components.
